About the Magellan Global Equities Fund

The Fund offers investors an opportunity to invest in a specialised and focused global equity fund that invests in the securities of companies listed on stock exchanges around the world. The Fund's portfolio will comprise between 20 to 40 stocks at any one time but will also have some exposure to cash. The primary objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss. It is not our intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.
